

The Smart Choice in Business Financing

Who is Trust Financing Solutions?

Trust Financing Solutions is a team of highly experienced financial professionals. With our knowledge and nationwide reach we can find a solution for your financing needs. We work with businesses large and small, new and long established, and those with less than perfect credit. We often partner with banks or other trusted financial professionals to ensure your business gets the financing support you need.

How much can I qualify for?

You may qualify for loan amounts up to 22% of your business's total annual sales with loans from \$5,000 to \$750,000 with no collateral required. Once our provider determines how much you qualify for, you can choose the loan amount and repayment term that works best for your business. Repayment is very simple! An ACH debit is processed on the authorized business checking account for the term of the loan. Any funds that are not used can be quickly accessed as a line of credit.

Why take this?

As a licensed lender, you can rest assured the provider adheres to the highest level of business standards. In addition, since they are licensed, the interest you pay is tax deductible further reducing these industry leading rates.

What can I use the money for?

Use the funds for any business related expense. Things like expansion projects, renovations, remodeling, opening another location, new equipment purchases, inventory, advertising and marketing, or to simply stabilize cash flow.
